### A professional presentation

Will you soon be organizing a fair or sales-event? If so, this is the moment to organize your presentation professionally, for now and for the future. Because, when you present your business at a fair, you're aiming

for success. Therefore, professionalism is an inescapable precondition. Presentation is more than just a good story, the entire impression is important. Thus, your stand is the foundation of your success. A large

stand, or rather a small one, just a wall, or the entire corner... Each fair and each event is different. With Expo Prestige you are well-prepared and effective participation is assured.

The system consists of modules and is thus easily extended or to be used in parts only. You will be able to use your stand in different locations and situations, without incurring additional costs each time. This not only saves costs, but is very practical as well.

## Service and warranty

Expo Prestige finds its way from our own factory in Switzerland and seven European sales-offices to our customers in over 40 countries. A good gauge for success.

Expo Prestige excels in durability and quality. Without any doubt in our minds we can offer you lifelong service and warranty.

## Print studio and CAD design

The basis of a flexible and modular stand starts in the design studio. Using the latest software we plan your stand carefully, suited to your

needs and requirements. A CAD design presents you with a realistic impression even in the early design stages.
